Australia: now delivering DC servo motors weekly.

Maxon motor Australia will now receive a weekly shipment of DC servo motor customer orders to their Sydney office.

Maxon motor Australia has responded to their customer demands and from August 3rd will move to a weekly factory shipment. A steady increase in customer orders of the DC servo motors and gearheads has prompted the shift. As maxon motor Australia approaches their 10 year anniversary, the success of the DC servo motor manufacturer has stemmed from the reliability and quality of their DC servo motors, prompt customer service & support and expansion into growing technological fields such as robotics, medical and aerospace applications.

Customers in Australia and New Zealand will benefit from a reliable and regular shipment pattern as well as faster response times on orders of DC servo motors, gearheads, sensors/encoders and other accessories.
