

maxon DC servo motors' quality control system equals reliability you can trust.

A system that tracks and records every component manufactured in maxon DC servo motors.

How does maxon motor guarantee the top quality DC motors, gearheads and accessories that we manufacture? We hold ourselves accountable and our suppliers accountable. To ensure that only the best will do we implement quality control systems to track and trace 95% of the components used in our DC servo motors and drive systems. The tracking system meets customer and Standard Certification (EN 9100, ISO 9001, ISO 13485, ISO 14001) requirements.

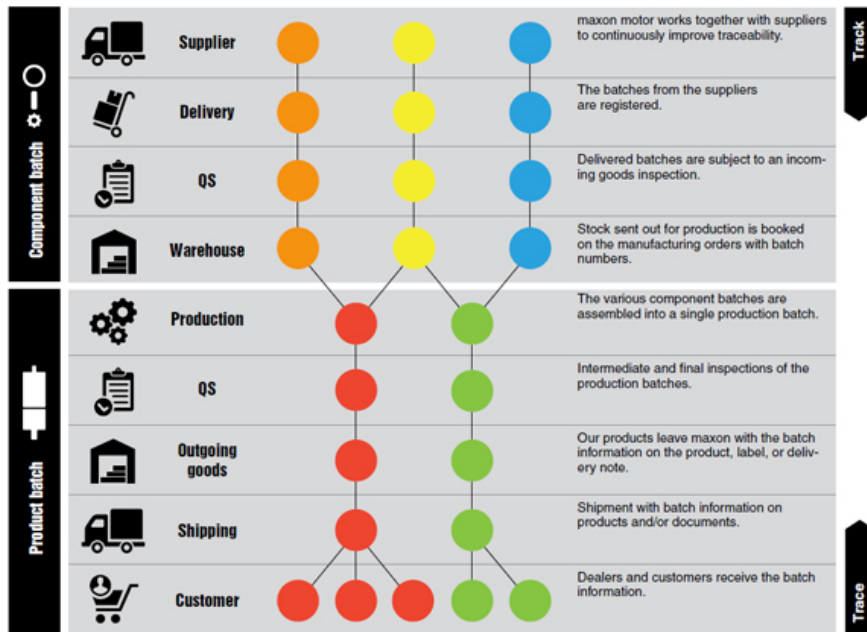

maxon DC motors are found in applications across industries such as medical, aerospace, industrial automation & robotics, instrumentation & inspection, consumer and oil & gas applications. For more information please contact a Sales Engineer on +61 2 9457 7477.
