

New sizes of DC motor and Planetary Gearheads available for configuration through maxon's online tool.

Now available for online configuration maxon motor Australia release new sizes of DC motor and planetary gearhead.

Following from maxon motors release of the new ECX DC motor ([read about it here](#)), now available are new sizes of the high speed brushless DC motor and planetary gearhead. A complete DC drive system can be tailored to individual demanding applications by adding the EPOS powerful motor controller.

New sizes available include the ECX 8mm and 22mm diameter (in both Medium and Long versions) and eight variations of the GPX planetary gearhead in sizes ranging from 12mm to 26mm.

The benefits of the new ECX range of DC motors include extremely high speeds, low noise, sterilisable and lightweight for applications with compact space constraints.

For more information please contact maxon motor Australia tel. +61 2 9457 7477.
