A new year full of innovation for the leading DC motor specialist.

Welcome to a new year full of exciting technological innovation. maxon motor will again lead the technology push for the most efficient, powerful and dynamic DC motors, gearboxes and controllers.

maxon motor continued to grow in 2016 achieving new records, the maxon motor factory is better, faster and more organised than ever before and all production sites are being expanded. A renewed global focus and streamlining will increase our organisations efficiency with more access to experts in specific application areas. With our increase in capacity and knowledge we will produce more and more complete systems and highly complex sub-assemblies offering further benefits to our customers.

We are eagerly awaiting the Hannover Messe in Germany where maxon motor will present over 18 new products in the 2017/18 program as well as new products launched on the maxon online configuration platform.

I wish all our Australian and New Zealand customers a prosperous year and look forward to helping you succeed.

Brett Motum,
Managing Director, maxon motor Australia.
