Customer alert: discontinuation of DC motor EC25 High Speed.

The brushless DC motor EC25 from maxon is being discontinued.

Developed for high-speed spindle applications, the EC25 High Speed brushless DC motor is being phased out and replaced with the ECX High Speed series of DC motors. For example, the ECX SPEED 22 L performs almost identical to that of the EC25, but with a 3mm smaller diameter and offered at a significantly lower cost. The last orders will be taken October 31, 2017 with final deliveries 31 December 2017.

For more information please contact maxon motor Australia tel. +61 2 9457 7477.
