

Maxon DC motors in the world's fastest elevator.

The Shanghai Tower building is the second tallest in the world with a lookout platform 561 metres high. To get to the viewing platform, maxon DC motors will open the lift doors for you.

Three express elevators service the world's highest lookout platform within the Shanghai Tower. Moving at a speed of 20.5 meters per second the express elevators will bring you to a mesmerising view in less than 30 seconds. A maxon DC motor opens and closes both the doors of the elevator cab and the doors at each individual floor. The DC motors were selected for being small yet powerful, reliable, energy-saving and intelligent. For more information on DC motor technology please contact maxon motor Australia on tel. 61 2 9457 7477.
