

## Fresh, local, organic food delivered emission free.

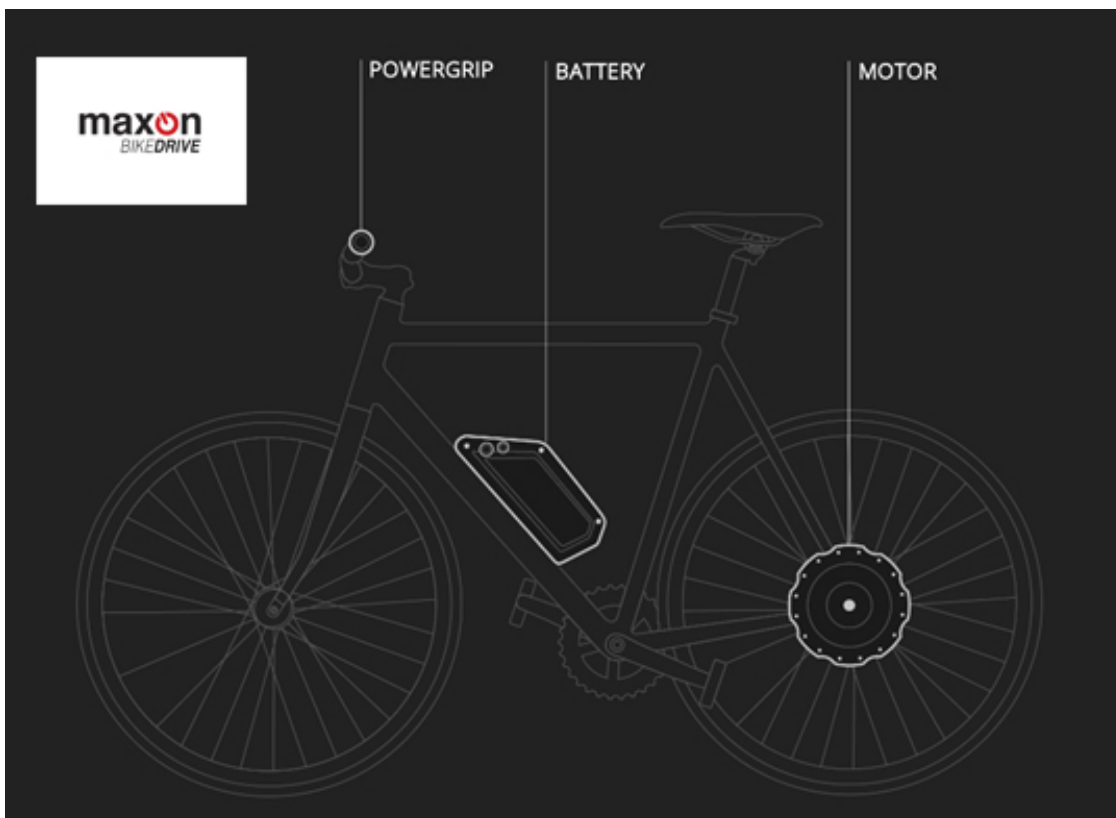

**Maxon BIKEDRIVE is lightweight & powerful and can be fitted to nearly any bicycle, instantly adding up to 50 Nm power and achieving speeds up to 45 km/h.**

Delivering organic, seasonal, locally produced fresh food with zero carbon emissions around the hilly town of Lausanne in Switzerland is a thriving business for local company, Plateforme Bio Lokal. Owners Charles-Louis Mourruau and Hansjörg Haas transport boxes on their cargo bikes, with fresh produce weighing more than 100 kgs, working 12-14 hours per day and cycling up to 80km per day. And it's possible because they use maxon's BIKEDRIVE on their bikes. The BIKEDRIVEs DC motor, battery pack and powergrip is lightweight at 3.5kg and powerful delivering 50 Nm of torque and accelerating from 0 to 32 km/h in just 3 seconds. For Hansjörg Haas "The desire for sustainable food is increasing. At the same time the streets are clogged with cars. Therefore cargo bikes are the means of transportation of the future". For more information on maxon's BIKEDRIVE call maxon motor Australia +61 2 9457 7477 or visit [www.maxonbikedrive.com](http://www.maxonbikedrive.com)
