Getting to know the range of AC geared motors from Parvalux.

At the end of 2018 maxon motor acquired Parvalux thus expanding the group's portfolio with AC motors, worm gearboxes, and DC drives in the power range of up to 1.5kW. The alliance between the two companies enabled maxon to take another step towards becoming a provider of complete systems and Parvalux benefiting from maxon's global sales network for its continued growth.

Parvalux products are found across hundreds of applications but they are particularly well known in transport, healthcare, mobility, leisure and various across industrial applications.

Particular specifications of the AC motor range include power ranges of 8 Watts to 315 KW, single and Three Phase power options, Parvalux and IEC Frames, asynchronous and synchronous single and two speed versions, IE2 and IE3 versions; all with the availability of die cast zinc alloy, aluminium and cast iron housing materials.
