

## PMDC motors from Parvalux.

**Parvalux manufactures an extensive range of Permanent Magnet DC Brushed motors that can be combined with their in-house manufactured right-angle or in-line gearheads.**

The Parvalux standard brushed DC motors offer a performance range of speeds across 1,000 – 5,000 RPM, power up to 2,030 W and torques of 0.1 to 4.9 Nm. When combined with in-house manufactured gearboxes these systems are suitable for a varied range of applications found in the healthcare, industrial or leisure industries. These PMDC motors can be off the shelf, semi-tailored or custom-made systems dependent on the application needs.
