

maxon

Our drive systems
go a long way

Mars robots without
maxon – unthinkable

We are maxon

We develop and build high precision electric drive systems that are among the best in the world.

We combine brushed and brushless DC motors, gearheads, sensors, and controllers into complete mechatronic drive systems – from customized single units to mass production.

Since 1961, businesses from a wide range of industries including medical technology, robotics, industrial automation, mobility, and aerospace place their trust in reliable drive systems by maxon. Our drives are perfectly suited for wherever extreme precision and the highest quality standards are needed and where compromises cannot be tolerated – on Earth and on Mars.

Facts and figures

Headquarters	maxon motor ag Brünigstrasse 220 6072 Sachseln (Switzerland)
Contact	Phone +41 41 666 15 00 info@maxongroup.com www.maxongroup.com
Legal form	Family-owned joint-stock company Dr. Karl-Walter Braun (majority shareholder)
Global revenue	CHF 526 million consolidated (2018)
Main markets	Medical Industrial Automation Aerospace Mobility Solutions
Production sites	Switzerland, Germany, France, Hungary, the Netherlands, UK, USA, South Korea, China
