Press Release

Product discontinuation: ECX Square 16 L

Discontinuation of the ECX Square 16 L

maxon motor Australia would like to inform its customers of the discontinuation of the ECX Square 16 L.

Figure 1. ECX Square 16 L

The following product will be affected by this discontinuation:

- ECX SQUARE 16 L, length 52.3 mm, assigned power rating 20 W

This discontinuation affects all voltage variants, configurations and combinations that are based on this brushless ECX SQUARE 16 L motor.

Discontinuation Details:

The following timelines will be observed:

- Last orders (LTB) by: March 31, 2024
- Last deliveries (LTS) by: April 30, 2024

Alternatives:

For alternative options, the motors from the ECX SPEED series are recommended as substitutes for the ECX SQUARE 16 L. These motors are configurable and come in various diameters, lengths, and power versions. Additionally, ECX SPEED motors offer versatility with options for hall sensors, integrated encoders, or combinations with various GPX gearheads.

The Swiss specialist for quality drives

maxon is a developer and manufacturer of brushed and brushless DC motors, as well as gearheads, encoders, controllers, and entire mechatronic systems. maxon drives are used wherever the requirements are particularly high: in NASA's Mars rovers, in surgical power tools, in humanoid robots and in precision industrial applications, for example. To maintain its leadership in this demanding market, the company invests a considerable share of its annual revenue in research and development. Worldwide, maxon has more than 3000 employees at nine production sites and is represented by sales companies in more than 30 countries.
